ABOUT US

BSDI Black Sea Defense Industry was established in 2024 in Trabzon as a defense industry manufacturer specializing in firearms. The company was founded on the extensive industry experience of its partners, built over many years in the defense sector.

BSDI is built on a strong team of experienced professionals and highly motivated young talent. The organization continues its work in line with the discipline, technical approach, and sense of responsibility required by the defense industry.

Production processes prioritize quality standards, technical accuracy, and full compliance with applicable regulations. The company operates within a structured and well-planned framework focused on continuous improvement.
